- Learn about RECENT failures facing curtain wall assemblies as well as performance issues for IGU, aluminum coatings, gaskets and water/air leakage -- know what to look for to recognize failures in the future.
- Examine components and construction of curtain wall for potential failure issues.

Karim Allana

- Learn about forensic studies that highlight what works and what does not. Discussion includes failures related to window structure, assembly oxidation and corrosion of low-E coatings and failure of seals, sealants and coatings on aluminum frames.

Our speaker is Karim Allana, PE, RRC, RWC and CEO and Senior Principal of Allana Buick & Bers, Inc. an architectural-engineering firm specializing in building envelope.
