

Acoustical Glazing Acoustical Glazing

Thursday, March 26, 2015

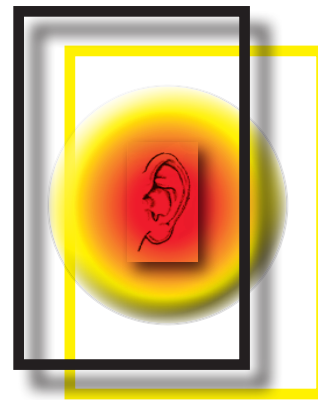

**Embassy Suites, Tukwila
15920 West Valley Hwy**

5:30 p.m. Social Hour/Check-In

6:30 p.m. Dinner/Program

\$50.00 Member/\$70.00 Non-Member

Reservation Deadline: Tuesday, March 24th, NOON

Our March 26, 2015 dinner meeting speaker, Jerry Lilly, president and owner of JGL Acoustics, Inc. located in Issaquah, Washington will address the following topics:

- Acoustical Fundamentals: What is sound, how is it measured, sound level descriptors, frequency analysis, absorption vs. transmission.
- Sound Transmission Loss: How is it measured, frequency dependence, STC & OITC. (STC: Sound Transmission Class; OITC: Outdoor Indoor Transmission Class)
- Sound Transmission Loss of Glass: Single, double, triple pane, laminated glass and glass block.
- Sound Transmission Loss of Windows: Operable, fixed, effect of window frame and trickle vents.

Jerry Lilly is a certified member of the Institute of Noise Control Engineering (INCE) and is a licensed professional acoustical engineer. He is active member of the National Council of Acoustical Consultants and the Acoustical Society of America. Come and join us for our first WGA Dinner Meeting of the new year!
